Months Of Experience
1000+
Hours Of Coding
69
Projects Completed
10+
Awards Won
WHY PROGRAMMING?
Growing up, I was always fascinated by two things, sports and technology. Naturally after high school I gravitated towards a career in health and fitness and somewhat ignored my passion for technology. After a few years in the degree I decided it was time for a change and that whilst health and fitness will always be of the utmost importance to me, a career in it was not what I was after. I felt like a career in programming could open plenty of new doors for me and with a leap of faith I enrolled in the Web Development bootcamp offered by Coder Academy.Since then I haven't taken a backwards step and have flourished under the guidance of their mentors.
